## How to stay safe.

Life is the most important to everyone. Self-protection is one of the most useful skills for us teenagers because safety comes first. We must know how to stay safe in our daily life.

During our class break, I often see some boys run down the stairs. They push each other, talking and laughing loudly. I think it's very dangerous because they may fall and get hurt if they are careless. It's important for us to be careful all the time and learn to wait our turn. Think about the risk of accidents and keep ourselves safe.

In short, everyone needs to learn how to protect ourselves and stay away from danger.

Dear Helen.

Happy to hear from you.

In my opinion, the best time to visit Dalian is in summer.

Dalian is a coastal city, so it is not very hot in summer. In July or August, you can go to the beach to swim in the blue sea. It's very cool and relaxing. So remember to take your swimming suit. It's also a good idea to lie on the beach to enjoy the beautiful sunshine.

Don't forget to try some delicious seafood. Dalian is famous for it, so don't miss.

Bring your camera, because you may want to take photos of the beautiful city. Looking forward to your coming!

Yours,

Daming.

Dear students,

Doing sports is part of our life now. When we do sports, we should pay attention to sports safety at the same time. Last week, when I was doing some sports, I hit another student and hurt my leg. What can we do to keep safe while we are doing sports? Here is my advice.

First, we need to warm up before we do sports. We may hurt ourselves if we don't have enough warm-up. Besides, it's necessary to wear sports clothes and sports shoes when we do sports. We are more comfortable in sports clothes and sports shoes. When we are running, we mustn't push others since pushing others will cause accidents. If you are not feeling well, stop doing sports immediately.

Life lies in movement. Let's enjoy sports and pay attention to sports safely together!

Yours,

Li Hua.

Dalian is a beautiful coastal city with a pleasant climate. It is a good place for people to live in. Too many people from the countryside moved to Dalian, because they want to find jobs and have a better life. They also need places to live in. So the government built lots of flats, roads. It is clear that Dalian needs more schools and hospitals. However, these cause some problems, such as water and air pollution and heavy traffic in rush hours. What should we do to save our city?

In my opinion, Dalian should develop its economy scientifically. I also think that we should control our growing population so that we'll have a better city in the future. It's our duty to protect our city against pollution. Let's try our best to make our city more beautiful.

(2) 词数在70词左右。

My hometown, Dalian, is a beautiful coastal city. But with the development, there are still some problems. Among them, traffic and pollution are two biggest ones. There are more and more cars now in the city. So it is very easy to see traffic jam, especially when we go to school or offices in the morning. In summer, when visitors come, it is more serious. Another problem is pollution. As a city on the beach, Dalian is famous for its beautiful views. But now it's easy for us to see rubbish on the beach. The air is also not very clear because of so many cars.

I think we should work hard together to solve the problems. For example, we can ask our parents try to take buses more instead of driving. We also can volunteer to clean the beaches and call on more people to protect our environment. I believe the future of city will be better and better.

Suddenly a car appeared around the corner and driver was talking on the phone. I was very scared, luckily the driver stopped in time but the boy still fell off his bike and hurt his knees.

I felt worried about the boy. If he still rides a bike carelessly, something worse may happen to him. I think we all need to follow the traffic rules.

I want to share the happiest experience with you.

Last month, my teacher asked me to help my classmate who was poor at English. At first, I was unhappy, because in my opinion, it was a waste of time. I had to stay in the classroom though we finished school. It was patient of me to help her with the questions she didn't understand and to teach her again and again. With my help, she made progress day by day. And it's surprising that I also improved a lot in English these days.

Now, I still help her. Seeing the progress both of us have made, I feel proud and I know that helping others is helping ourselves. It's the happiest thing in the world.

Yours.
